

# Steven Campos Vargas

I am a young and enthusiastic Systems Engineering student with a strong passion for programming and web development. During my experience as a Front-End Developer, I have acquired solid skills in web application development and the implementation of SDLC methodologies. I am committed to continuously learning and improving my skills in a dynamic and challenging work environment. Additionally, I enjoy sharing the knowledge I have gained with my team members.

## EXPERIENCE

### Software Developer

Year: July 2022 - Currently

- I designed and developed interactive and responsive user interfaces using HTML, CSS, and JavaScript.
- Integrated APIs and external data sources into Angular applications to enhance functionality and user experience.
- Utilized Git and version control to manage codebase and track changes.
- I collaborated closely with the design team to ensure visual coherence and functionality of the applications. I participated in the full software development lifecycle (SDLC), from planning and design to implementation and maintenance
- Utilized Jira as the primary project management tool to facilitate agile development processes and track project progress.
- Collaborated closely with cross-functional teams to implement Scrum methodologies, ensuring efficient and timely delivery of projects, participated in sprint planning sessions, daily stand-ups, and retrospective meetings.

## EDUCATION

### Universidad de Costa Rica, Puntarenas— *Bachelor's in Business Informatics.*

2018 - 2022 (Incomplete)

## SKILLS

Programing languages (Java, C#, ASP.NET).

SQL (Mysql, SQL server. Applying Queries, stored procedures, functions, views, triggers).

ORM (Entity Framework).

Web development (HTML, CSS, SCSS, javaScript, TypeScript, Angular, React).

Git Knowledge.

Linux Fundamentals.

## LANGUAGES

Spanish (Native).

English (B2).
